

**Risk Assessment with Adolescents Who Have Offended Sexually**

James R. Worling, Ph.D., C.Psych.

This seminar will focus on providing practical information and strategies for professionals who complete risk assessments for adolescents who have offended sexually. Using lecture, case studies, discussion, limited role-play, and detailed resource materials, participants will address critical issues in risk assessment such as the importance of completing a comprehensive assessment, recognizing the diversity among adolescents who have offended sexually, tips and strategies for clinical interviewing, common risk assessment approaches and tools (particularly the ERASOR and including the J-SOAP-II and J-SORRAT-II), psychological and physiological testing, and the development of holistic treatment plans.
